HHS HIPAA SECURITY AMENDMENT: MANDATORY ePHI ENCRYPTION STANDARDS

Privacy Liaison: David K. Miller (DOB: 1982-04-15, Address: 742 Evergreen Terrace, Seattle, WA)

POLICY MANDATES & REGULATORY UPDATES:

[1] Covered entities must implement phishing-resistant hardware MFA for all administrative ePHI systems.

[2] Cybersecurity breach incident disclosures must be filed with HHS OCR within 72 hours of initial discovery.

[3] Legacy clinical databases containing patient social security numbers must be de-identified or encrypted with AES-256.
